

## **MAGMA (MAGM) FIREPAPER v4.0**

[HTTPS://MAGM.RED](https://magm.red)  MoltenChain

### VERIFIED

**MAGMA is completely verified on Algorand!**

**MAGMA is completely verified on Stellar!**

**MAGMA is completely verified on Cardano!**

### TOKENOMICS

MAGMA is a utility token, designed to be used by anyone. The symbol for MAGMA is MAGMA. There will be 777 Million MAGMA tokens in total supply with 10 decimal points.

**MAGMA is MAGM on Algorand, we will be ending support on Algorand upon the launch of the MoltenChain Mainnet.**

**microMAGMA is Sulfur!**

MAGMA is designed as a micro-transaction currency, fractions of MAGMA are called Sulfur.

Alice receives 3 Sulfur that is 0.0000000003 MAGMA, or if Bob receives 1 Sulfur and that is 0.0000000001 MAGMA.

The symbol for MAGMA is ₠ and the symbol for Sulfur is ⚡, and they will be referenced as such in the example below.

Since M has ten zeros after the decimal point, ₳ is calculated as such.

$$M 1.0000000000 = ₳ 10,000,000,000 \ \& \ ₳ 1 = M 0.0000000001$$

## Blockchain Networks

Algorand (live + Bridge Swap)

MoltenChain (testnet)

Cardano (live + Bridge Swap)

Stellar (live + Bridge Swap)

*We have an entire ecosystem under development, MoltenChain will provide on-ramps for the following cryptocurrencies. The main liquidity pool for MAGMA on MoltenChain will be paired with USDC.*

Ark

Solana

Binance

Tron

CRO

Ethereum

Cosmos

Avalanche

EOS

Polkadot

Polygon

Lisk

NEO

NANO

Moonriver

Ziliqa

Enjine

Bitcoin

XRP

DASH

EUROC

NAIRA

DASH

DOGE

## ALGORAND

No clawback   
NO FREEZE   
ASA ID 445362421  
10 DECIMAL POINTS

### ACCOUNTS

₠500,000 has been sent to Joe Mendoza, COO of Redeaux Games,  
wallet address  
RPGB2ZWV2JJWM2YVZFXHHOV36ZTAFSUJVK7XEE3WBD3B3JNMBTQHS3T2SI.

₠500,000 has been sent to Nina Bimbo Tene, Executive Intern of  
Redeaux Games, wallet address  
J4SSMI67QXMTIVVNICJUZO73LBL6C2WQNHJP27LFLAMVO2H6UPF5FARZA.

₠7,000,000 has been sent to the Lead DEV/Founder/CEO of Redeaux  
Games, wallet address  
UNBQ62CF2GWFIOU6B2LTC6KYP237BKA6GOKACN3NJAFJRJ33GOFTYBB4Z4.

₠68,000,000.92297606 has been sent to the Redeaux Games reserve  
wallet, wallet address  
VA3R6KRSRWIR54NAV5QNJFNQXFLWWDETSZ22DOS6I64OQGS4HYLRMSQ3U.

₠1,005.9375745981 was sent to an early adopter.

### NFT PROJECTS

**VERIFIED:** We are working on verifying the NFTs.

#### ***The Royalty Collection***

Is a collection of the most iconic Kings, Queens and leaders  
from the medieval time period of Lairiah. There are 11 total  
Royals and only 1 each minted. Holding these in your wallet pays  
daily rewards in MAGMA.

## MoltenChain Ecosystem

Not all of the details of MoltenChain are currently publicly available. MoltenChain is the MAGMA native blockchain network, still under active development.

Here is the map of the infrastructure we have planned for MoltenChain, MAGMA's very own blockchain.

**We are in the private testing phase, getting ready to begin the private beta, after we squash the bugs and recompile the source code. We are preparing to launch the private beta testnet in March of 2025.**

## CARDANO

777,000,000 MAGMA HAVE BEEN MINTED ON THE CARDANO BLOCKCHAIN. We are working on this. **WE WILL BE ENDING SUPPORT WITH CARDANO UPON MOLTENCHAIN MAINNET LAUNCH.**

## STELLAR

777,000,000 MAGMA HAVE BEEN MINTED ON THE STELLAR BLOCKCHAIN. We are working on this. **WE WILL BE ENDING SUPPORT WITH STELLAR UPON MOLTENCHAIN MAINNET LAUNCH.**

## ABOUT MAGMA

MAGMA has been developed by the Redeaux Corporation.

Anyone can use MAGMA and can include it into their websites/app, projects, or games with ease. We are creating an entire API around MAGMA, so using it anywhere will be easy!

## CROSS-CHAIN (SMARTBRIDGE)

We are developing a smartbridge system to enable cross-chain swaps between different blockchain networks.

The idea behind MAGMA is to create a super simple way for new or existing users to swap almost any currency into MAGMA!

For FIAT to MAGMA we are working with Coinbase, MoonPay, and Circle.

We will not make assumptions about when this feature will be available, but when we get close we will announce it on our website (<https://magm.red/>), and on our Discord server <https://discord.gg/v9ukSBWVa5>.

## THE VISION

MAGMA will also have an independent DEX, wallet and NFT platform.

We are currently working on these features, and it will take some time to do it. When we get more information we will update the Firepaper.

**THEORIES:** We are exploring different ways to be more stable and other possibilities with MAGMA.

## FUTURE RELEASES

**MoltenChain:** Is a native blockchain network with MAGMA as the parent currency, MoltenChain is a robust nextgen blockchain ecosystem that features state of the art security monitoring using machine learning and artificial intelligence.

**Volcanic Wallet:** The official wallet for the MoltenChain Ecosystem.

**EXPLODE:** Explode is a music, podcast, and video streaming platform, it offers the ability for fans to directly tip the artists or creators with MAGMA.

Explode will be streaming within The Verse, exposing the artists and creators to The Verse.

**MNFT:** MNFT is our NFT marketplace for the MoltenChain Ecosystem.

**CALDERA:** The MoltenChain Ecosystem asset and dapp directory and verification system.

**MAGMA GIFT CARDS:** We are developing a method for a MAGMA Gift Card service. We are putting together a proof of concept using Smart Contracts and a custom system allowing a user to purchase an amount of MAGMA, using their debit cards, bank transfers, PayPal, or any cryptocurrency. They can then send a QR code or hash ID to whomever they want to be redeemed.

The smart contract will create a buy order at the current market value and lock into escrow until the contract is redeemed with the QR code or hash ID. The smart contract will deposit the amount in escrow to their connected wallet.

## SOCIALS

Here is a list of the socials for MAGMA
